PROFESSIONAL SUMMARY

Pharmaceutical Analyst with 8+ years of laboratory and regulatory experience at NPRA, transitioning into software development. Self-taught developer proficient in Python, JavaScript, MQL4/5, and web technologies. Built and shipped real-world products including automated trading systems serving active forex traders, full-stack web applications, and open-source AI tools. Strong analytical mindset from scientific work, proven ability to learn complex systems independently, and a daily coding habit with 800+ GitHub contributions.

TECHNICAL SKILLS

Languages:	Python, JavaScript, C/C++, MQL4, MQL5, HTML, CSS, SQL	Frameworks:	Next.js, FastAPI, Bootstrap
Databases:	Supabase, PostgreSQL	Tools:	Git, GitHub, Linux, MetaTrader, Excel, Vercel
Specialties:	Algorithmic Trading, API Integration, Automation	Analytical:	HPLC, GC-MS, LC-MS, ICP-MS, GFAAS, CVAAS, Equipment Verification (ISO 4787, 8655-2), Data Analysis

PROFESSIONAL EXPERIENCE

Pharmaceutical Analyst

Sep 2017 – Present

National Pharmaceutical Regulatory Agency (NPRA), Malaysia

- Conduct laboratory testing and technical analysis on pharmaceutical products using HPLC, GC-MS, ICP-MS, and LC-MS instruments
- Ensure compliance with Good Laboratory Practice (GLP) standards and generate structured technical reports
- Automate data analysis workflows and reporting with Python and Excel, saving hours of manual work
- Apply statistical methods to evaluate product quality and regulatory compliance

Software Developer & Algorithmic Trader

Dec 2016 – Oct 2024

BuBat Resources (Self-Employed)

- Developed and published 6+ Expert Advisors (trading robots) for MetaTrader 4 & 5 platforms using MQL4/MQL5
- Built eabudakubat.com — full-stack product website with Next.js, Supabase, and Vercel

- Created open-source AI trading system (GoldMind AI) integrating OpenAI API with MetaTrader 5 via FastAPI
- Managed social media presence with ~15,000 followers for product marketing
- Maintained active GitHub with 800+ contributions and daily coding consistency

Affiliate Marketing Specialist

Dec 2018 – Oct 2024

GB Network Solutions Sdn Bhd (Part-time)

- Managed affiliate marketing strategies for Forex VPS and hosting services

KEY PROJECTS

EA Budak Ubat — Automated Trading System

Published Expert Advisor on the MQL5 Marketplace with 10+ stars on GitHub. Features 4 analysis methods, AutoConfig AI, hedging strategies, and comprehensive risk management. Supports MT4 & MT5.

MQL4 · MQL5 · Algorithmic Trading · Risk Management

GoldMind AI — AI-Powered Trading Signals

Open-source system connecting ChatGPT to MetaTrader 5 for AI-driven gold (XAUUSD) trading. Built the FastAPI backend, OpenAI integration, and MQL5 Expert Advisor.

Python · FastAPI · OpenAI API · MQL5

eabudakubat.com — Product Website

Full-stack product website with user authentication, downloads, community features, and automated deployments.

Next.js · Supabase · JavaScript · Vercel

Portfolio Website — Developer Portfolio

Responsive portfolio with dark/light mode, glassmorphism design, Web3Forms contact integration, and OG social previews.

HTML · CSS · JavaScript · Vercel

Frontend Mentor Challenges — 6+ Completed

Completed and deployed responsive web challenges including Testimonials Grid, Four Card Feature Section, and more. All live on GitHub Pages.

HTML · CSS · CSS Grid · Responsive Design

SPE Lab Reference — Interactive Lab Procedure Guide

Built an interactive web-based reference for Solid-Phase Extraction procedures with 3 methods, step checklists, progress tracking, built-in timers, and chemical quick reference sidebar.

HTML · CSS · JavaScript · Pharmaceutical Science

Sample Preparation Guide — Analytical Preparation

Documented a 7-category sample preparation workflow for drug screening, featuring step-by-step interactive flows for Anticholesterol, Diuretic, PPI and more.

Laboratory Procedures · Sample Preparation

Agilent 8900 ICP-MS Guide — Analytical Operation Reference

Documented a comprehensive 7-chapter operation guide covering system overview, startup procedures, method development, and regulatory compliance (USP 232/233, ICH Q3D).

Laboratory Procedures · ICP-MS · Analytical Chemistry

Equipment Verification SOPs — Quality Control

Authored and digitized standard operating procedures for the quarterly verification of analytical balances, micropipettes, and volumetric glassware based on MS ISO 17025.

ISO 8655-2 · ISO 4787 · Metrology · Quality Control

Uniformity of Weight Guide — Pharmaceutical Testing

Comprehensive web-based procedure guide for the Uniformity of Weight Test (PKKK/300/UAT/037) covering tablets, capsules, and lozenges per USP 43 <2091> with interactive expandable sections.

USP 43 · Weight Variation · Pharmaceutical Analysis

EDUCATION

Diploma in Pharmacy

Jul 2014 – Jun 2017

Institut Latihan Kementerian Kesihatan Malaysia (ILKKM)

- Pharmacy Technician/Assistant · Pharmacy Operations · Quality Control

Diploma in Accounting Information System

2012 – 2014

Universiti Teknologi MARA (UiTM)

- Accounting Fundamentals · Data Analysis · SQL/Databases · Excel

CERTIFICATIONS & CONTINUOUS LEARNING

Shimadzu UHPLC Theory & Practical with LabSolutions Workshop

Oct 2025

Shimadzu Malaysia Sdn Bhd

- Instrument theory, practical operation, and LabSolutions software training

NIC RA-4300A Mercury Analyzer Training

Sep 2022

Orbiting Scientific & Technology Sdn Bhd

- Hands-on operation, basic maintenance, and troubleshooting CVAAS

CS50x — Introduction to Computer Science

In Progress
